Miscellaneous Goods and Services		0.8

The Consumer Price Index declined by 1.4% for the twelve months ending August 2025. The overall decline was largely attributed to declining average prices in the categories Transport, Furnishings, Household Equipment, and Routine Household Maintenance.

The index for Transport Services fell 28.7%, attributed to a large decline in the average price of airline fares, primarily to Barbados, over the one-year period. The average fare declined from \$4,037.31 to \$1,328.56.

The index for Furnishings, Household Equipment, and Routine Household Maintenance fell 2.9%. The two largest contributors to the decline were the indexes for Furniture and Furnishings, Carpets and Other Floor Coverings, which declined by 7.4% and the index for Glassware, Tableware and Household Utensils fell by 5.9%.

The index for Food increased by 1.1%. The Index for Vegetables, Fruits and Meat and Meat Products were the largest contributors to the increase in the Food index. In the Vegetable category, all three sub-categories recorded increase, with the index for Frozen, Preserved or Processed Vegetables and Vegetable-based Products recording the largest increase of 7.2%. Within the category for Fruits, the index for Frozen, Preserved or Processed Fruit and Fruit-based Products increased by 17.8%.

The index for All Items Less Food and Energy declined by 2.1%. This decline was influenced by the reductions in the Transport Services, Furnishings, Household Equipment and Routine Household Maintenance and Clothing & Footwear.

In August 2025, the Monthly Consumer Price Index (CPI) declined by 0.3% compared to July 2025, driven primarily by a decrease in the Index for Actual rentals for housing (-1.2) and Food and Non-Alcoholic Beverages (-0.4%).

The Food Index declined marginally by 0.8%, with prices decreasing in six of the nine major supermarket food groups. The Fruit index fell 9.5%, while the index for Meat and Meat Products decreased by 5.1%. The Bread and Cereals index declined by 1.9%.

In contrast, prices rose for Oils and Fats (+6.3%), Vegetables (+4.4%) and Fish and Sea Food (+1.9%).

The All Items Less Food and Energy Index similarly had a marginal decrease of 0.2%, mainly due to a reduction in the Indexes for Actual Rentals for Housing index (-1.7%), Alcoholic beverages, tobacco and narcotics (-0.3%) and Furnishings, Household Equipment, and Routine Household Maintenance (0.1%). The reduction offset the increases in the indexes for Clothing and Footwear (+0.9%), Transport Services (+0.5%) and Miscellaneous Goods and Services (+0.5%).

Month-to-Month Changes for Aug 2025 compared to Jul 2025

Table 1: Examples of Goods and Services in the 2019-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food and Non Alcoholic Beverages	192	<i>Bread, cereals, milk, coffee, juices, meats, fruits, vegetables, sugar, water</i>	Monthly
Alcoholic Beverages, Tobacco & Narcotics	13	<i>Beer, stout, rum, vodka, wine, whisky, cigarettes</i>	Monthly
Clothing and Footwear	72	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, laundry services, footwear</i>	Quarterly
Housing, Water, Electricity, Gas and Other Fuels	13	<i>Rent paid, repairs and maintenance, water supply, electricity, LPG cooking gas</i>	Monthly, Quarterly
Furnishings, Household Equipment and Routine Household	82	<i>Appliances, sofas, mattress, dressing table, glassware; detergent</i>	Quarterly
Health	8	<i>doctor's bill, medicines, vitamins</i>	Monthly
Transport	27	<i>cars, batteries, license, gasoline, tyres, airline fares,</i>	Monthly, Quarterly
Communication	6	<i>Cell phones, cell phone rates, internet rates</i>	Quarterly
Recreation and Culture	14	<i>Televisions, radio, computers, cable tv services, movie cinemas tickets</i>	Quarterly
Education	3	<i>School fees, exam fees</i>	Annual
Restaurants and Hotels	8	<i>Meal lunches, burgers, fried chicken, pizza, roti, accommodation</i>	Quarterly
Miscellaneous Goods and Services	28	<i>Hair cuts, manicure pedicure, saloons, body lotion, toothpaste, shampoo, jewellery</i>	Monthly, Quarterly
Total number of goods and services in the basket	466	Prices are collected from the second Monday to the second Thursday of every month	

¹ Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food and Non-Alcoholic Beverages, Alcoholic Beverages, Tobacco & Narcotics and some Miscellaneous Goods and Services

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 12 major categories.

What are Weights?

Weights are "expenditure shares" that is the proportion of total spending on various consumer goods and services, for example, 20% on rent, 25% food, 15% transport, 10% on utilities and so on. the CPI weights are a expression of household's spending on consumer goods and services.

The weights were drawn from a survey of a sample of households in each month of 2006 (the weight base period). Each household in the sample kept a record of their expenditure for one month. Once completed, the expenditures were added to determine expenditure shares per 1000; these are the weights.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2019.

The current weights indicate that, households would spend the most on *Accommodation* (218.3 out of 1000) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households spend the least on *Alcoholic Drink and Tobacco* (1.6).

The base period index is represented as 100.0. (Usually presented as 2019 = 100). So for instance, if the April 2020 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2019. Similarly, if the January 2020 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2019.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (the inflation rate)
- month-to-month
- annual average (or annualised average)

The annual average CPI is the arithmetic mean of the CPIs of the 12 months.

<i>Year-on-Year Inflation</i>	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
<i>Month-to-Month Price Changes</i>	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
<i>Annualised Inflation Rate</i>	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

Table 2: CPI and Inflation Rate for Main Categories, Sub-groups and Sections

Table 3: Distribution of Changes in the Inflation Rate

Aug 2025 compared to Aug 2024	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Main Expenditure Level	12	3	9	0
Sub Group Level	23	9	11	3
Section Level*	12	6	6	0
Jul 2025 compared to Jul 2024				
Main Expenditure Category Level	12	2	10	0
Sub Group Level	23	9	11	3
Section Level*	12	6	6	0
Aug 2025 compared to Jul 2025				
Main Expenditure Level	12	4	4	4
Sub Group Level	23	4	4	15
Section Level*	12	6	4	2

*Section Level is 33 Sections however for comparative purposes between 2023 and 2022 data we are utilizing 12 section levels

Table 3 outlines the distribution of price movements for four inflation periods:

Aug 2025 compared to Aug 2024

Jul 2025 compared to Jul 2024

Aug 2025 compared to Jul 2025

In Aug 2025 compared to Aug 2024, 3 of the 12 main expenditure categories recorded price decreases, while 9 recorded price increases. 11 of the 23 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 0 of the 12 main expenditure categories recorded no price changes.
